

1 / 5

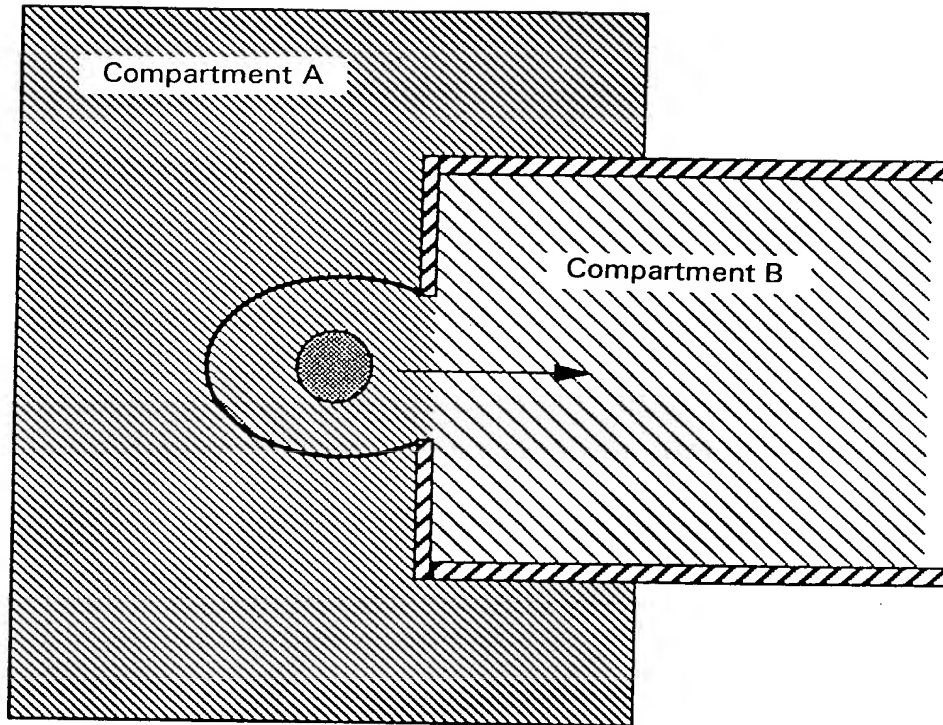

FIGURE 1

FCS Selection of Individual Microorganisms with Selected Fractionating (FCS Molecule Sorting)

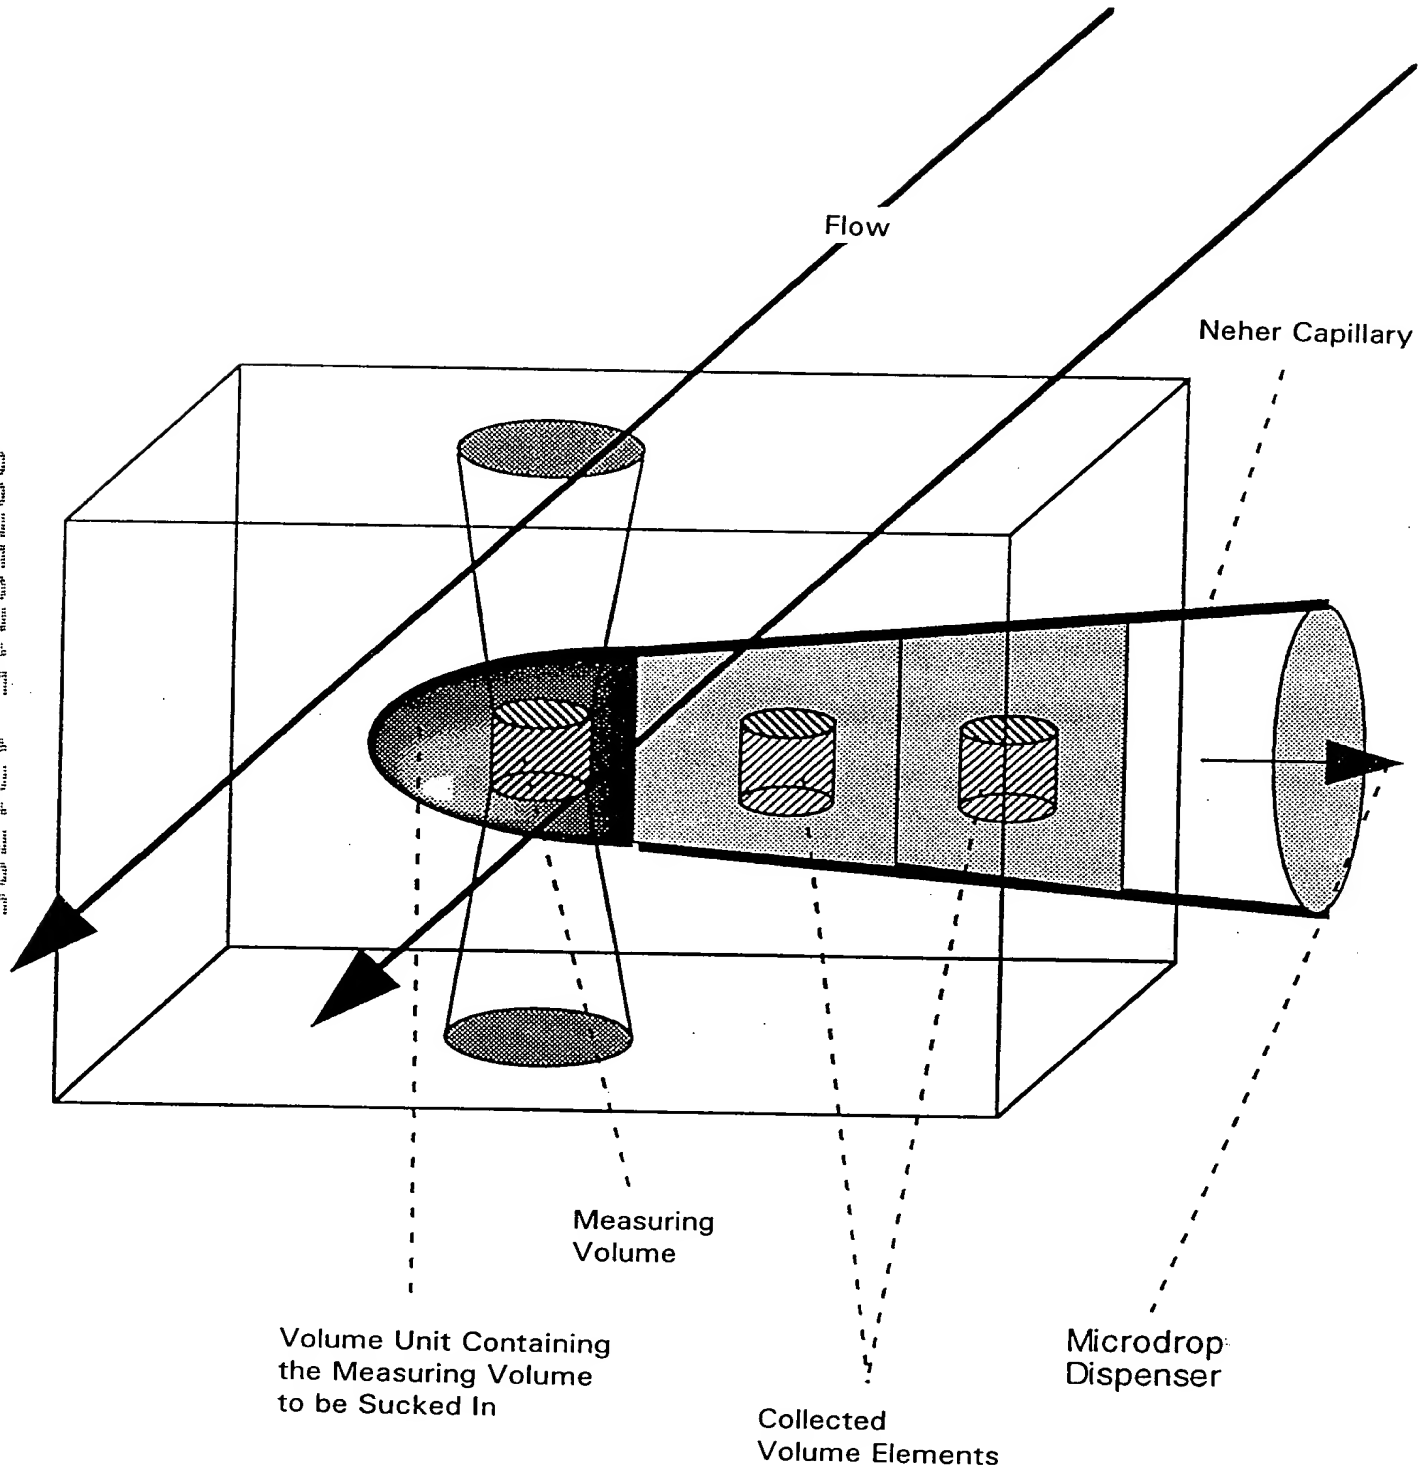

FIGURE 2

Cascade Enrichment of FCS Characterized Molecules, Molecular Complexes or Cells

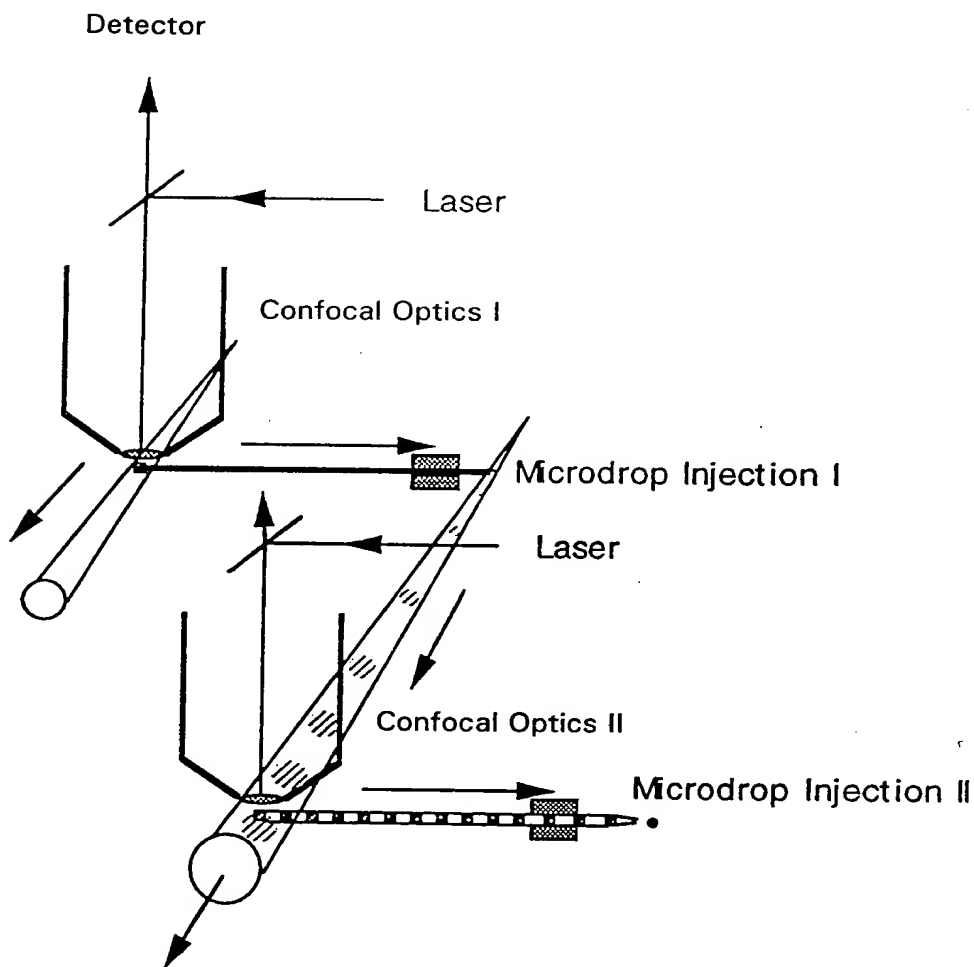

FIGURE 3

08/750715-121796

FCS Selection of Individual Microorganisms with Selected Fractioning

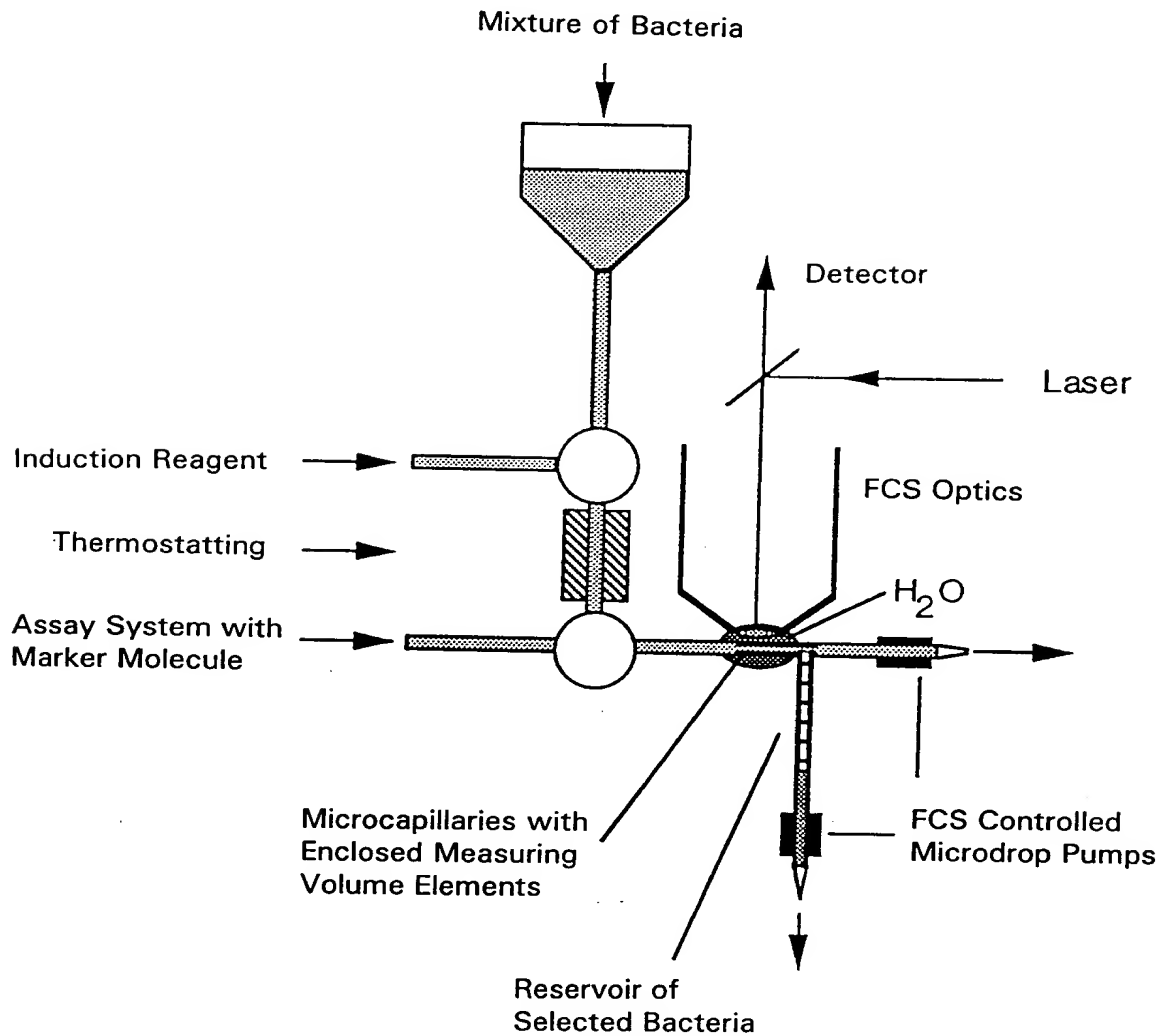

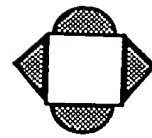

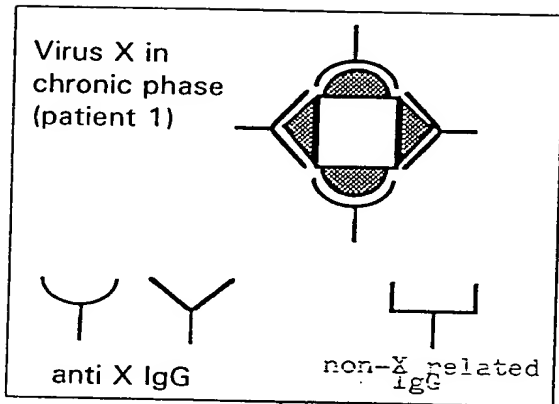

FIGURE 4

08/750715-12196

Virus X in acute viremic phase

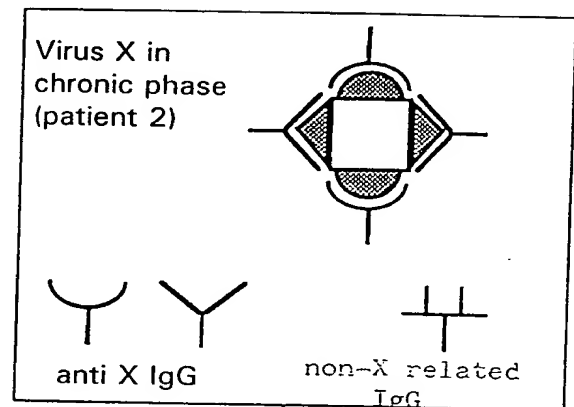

Preparation of IgG and labeling with fluorescent dye 1

anti X IgG

non-X related IgG

Preparation of IgG and labeling with fluorescent dye 2

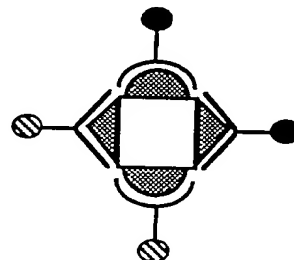

anti X IgG

non-X related IgG

Mixing with acute serum of virus X

Selection of complexes stained with dyes 1/2 with FCS cross-correlation and electric trap

in vivo/in vitro infection
PCR cloning
